

Harmonique de courant selon la norme 61000 3-12

Type d'onduleur: RPI M30A

L'onduleur Delta RPI M30A remplis les prescriptions sur les harmoniques selon la norme EN 61000 3-12.

Lieu:	Laboratoire Delta	Puissance AC:	30 kW
Date du test:	03.03.2015	U_{PV}:	650 VDC
Service:	EMC	Mode de fonctionnement:	MPP

Impédance du coté AC à 175Hz

L'onduleur Delta Delta RPI M30A présente à 175Hz une impédance de sortie complexe de type R+jX :

$$R = 0.00366$$

$$X = -49.096$$
