

# Integrated Pump Solution

## 0.75 kW – 22 kW

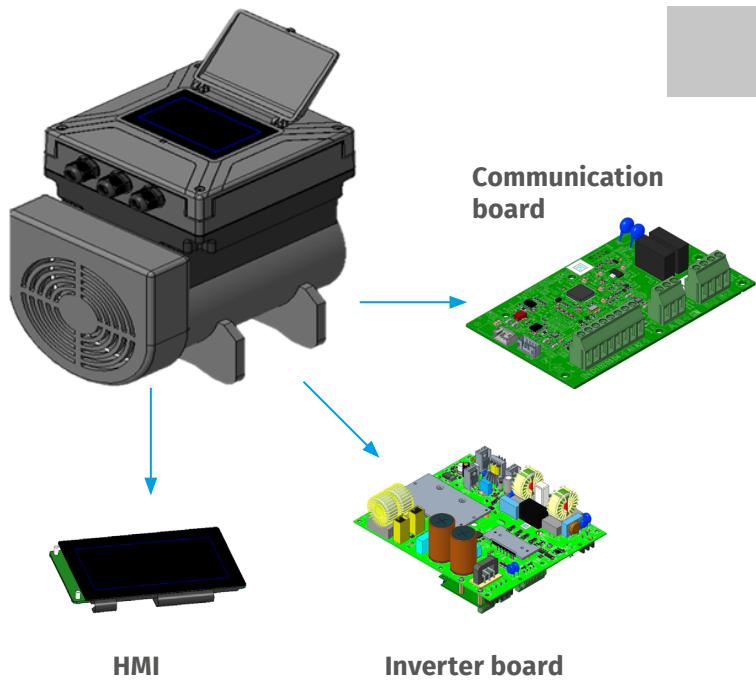

- Motor mounted (IES2 motor)
- Private label possible
- Intelligent Pump Function
  - Multi-pump control
  - Multi-master function
  - Dry Run / Leakage Detection
- SynRM / IM / PM supported
- IP55 enclosure, fan-free design
- Integrated PLC and real time clock
- Built-in EMI filter
- APP (Bluetooth) optionally available for pump application

### FAST AND EASY INSTALLATION

- Clear keypad for
- Mode & status
  - Pressure value
  - Parameter

### CUSTOM DESIGN

- Custom design
- Short development time
- Private label
- Integrated Solution only
- Intelligent Pump Function

1φ 230V, 0.2 ~ 2.2kW

3φ 400V, 0.2 ~ 5kW

# Pump Solution Overview

## Standard Pump VFD

### Performance

#### C2000+

Adaptability, Connectivity enhancement, High performance on board PLC, full power range/optional card

**0.75~630kW**  
**200V-400V-690V series**

**PM  
IM**

**SynRM**

**150%  
overload**

#### CP2000

Energy-saving HVAC systems for pump and fan applications. 120% light load capability, On board PLC, full power range/optional card

**0.75~630kW**  
**200V-400V-690V series**

**PM  
IM**

**SynRM**

**120%  
overload**

#### CFP2000

HVAC, fans & pumps, water treatment, IP55 enclosure, On board PLC, Standard BACnet on board, complete range optional card

**0.75~90kW**  
**200V-400V-690V series**

**PM  
IM**

**SynRM**

**120%  
overload**

#### ME300

Simple fans & pump applications, small power range

**0.1~7.5kW**  
**200V-400V series**

**PM  
IM**

**120%  
overload**

### Many possibilities, solution for any application

- Intelligent Pump Control
- Multi-Pump Control Mode
- Constant Pressure Control
- Auto Detection of Water Suspension
- Smart PID for Leakage Detection
- Fire Mode
- Flying Start
